

SY 2022-23 AED School-Wide Arts Integration Goals Planning Template

School Name:

Date: 11.8.22

Principal Name:

Arts Integration Coach(es) Name(s):

School goal(s): *** will graduate students who are academically prepared and motivated for the rigors of college and the fields of mathematics and science. After mastering a wide range of prerequisite skills, our graduates will be ready to enter college or the work force in entry-level careers in science and health. In addition, our graduates will have built a knowledge base of ideas, experiences and application through both internships and externships that address their needs and interests. As a result, they will be adept in working both independently and collaboratively. The teachers at High School will facilitate learning by providing high quality instruction, which engages students in curriculum that is challenging, authentic, and relevant. By fostering a nurturing environment, teachers will be empowered with a knowledge and understanding of students' emotional, academic, and social strengths and needs. Furthermore, using this knowledge, teachers will tailor instruction and develop alternate programs to meet students' personal goals and ensure their continued growth, development, and success.

Arts Integration Goal: These goals will provide our schools with interactive workshop related to arts Integration. It will provide us with reflection on current and new Instructional Practices, and explore creative approaches to Implementing the arts in class.
